

CROSSROADS

WALL MOUNTED BIKE RACK

ORGANIZED: Versatile compact design allows for storing bikes in a variety of spaces. Create orderly storage for one to an unlimited number of bikes.

SECURE: Available with a stainless steel braided cable or a hardened steel chain encased in a protective nylon woven sheath to guard against theft. Cable and chain models are U-Lock compatible.

COMPACT: Small footprint requires minimal space for mounting allowing for maximum bike storage density. The curvy and sleek design complements any space.

STURDY: Mounts directly to the wall. Stainless steel construction with a protective Santoprene® encased wheel hook and modern bead blasted matte finish.

The Crossroads No Scratch® wall mounted bike rack is the perfect bike parking solution for small or large spaces. Store 1 bike in a tight space or an unlimited number of bikes in larger areas. The Santoprene® covered wheel hook protects bike rims while parked. Sleek, compact and durable, the Crossroads will enhance any installation. The rack is both easy to use and simple to install. Available with an integrated stainless steel braided cable or a hardened steel nylon covered chain for ultimate security.
